

Field Name	Data Type	Description
conc_of_A	Float	A value used in the rate constant calculation.
noOfMoles	Int	A value used in the rate constant calculation.
RateOfReaction	Float	A value used in the rate constant calculation.
orde_of_B	Int	A value used in the rate constant calculation.
order_of_A	Int	A value used in the rate constant calculation.
K	Float	A value used in the rate constant calculation.
conc_of_B	Float	A value used in the rate constant calculation.
Intermediary	Float	A value calculated by the program during the rate constant calculation.
